BEYOND will work with both the QM2000 and FB3-QS hardware

## BUY LD2000, GET BEYOND FREE

For a limited time only, when you purchase a new LD2000 System, you will get the BEYOND software included for FREE.

So what this means is if you purchase LD2000 or BEYOND today, you get the following:

- \* LD2000 software (Intro, Basic, or PRO)
  - \* BEYOND Special Launch Edition software
  - \* BEYOND software (same level as you paid for)
- ( Essentials, Advanced or Ultimate - when version 2.0 is released )

BEYOND is an all new professional software, used for creating the world's highest quality laser light shows. It is a complete system, and comes standard with the QM2000 or FB3 hardware.

It will soon be available in three versions (Essentials, Advanced, and Ultimate). It will be backwards compatible with both the LD2000 and QuickShow software, so you can port all of your favorite shows back and forth to the new BEYOND platform. There will also be a convenient upgrade path between the levels of BEYOND, and existing LD2000 and QuickShow users can upgrade their software to BEYOND now, for some great rates. Version 2.0 of this software is scheduled to be released in November of 2011.
